

Manual Benchtop Sealing Machine 1308

SKU

A simple to operate manually-operated benchtop sealing machine. It seals and cuts film in one easy step, allowing for the sealing of 6-8 tray per minute. Using continuous film rolls, the self aligning heat platen ensures a complete and even seal. This machine features a compact design and is constructed of easy-to-clean stainless steel and anodized aluminium. Suitable for DualPak and pulp trays. Please note the largest possible tray size accommodating with this machine is the DualPak 6170.
